**START @ OSU**

Hi OSU Student,

At Oregon State University, we're dedicated to ensuring accessibility and affordability for all students.

START sessions primarily rely on fees collected from participating families. This year, we implemented a \$10 fee to begin to right-size our budget. However, in our commitment to maintaining accessibility, we've adjusted our budget approach, resulting in our ability to waive the \$10 attendance fee for students attending in-person START sessions in 2024. All other announced fees remain unchanged, including the student overnight fee for housing.

Guest fees continue to support catering, materials, staff wages, and room expenses for the day, as well as defraying costs for students attending START throughout the year. Please also note that housing during START sessions still incurs a separate cost for

families.

For any further questions, please feel free to contact Melissa Morgan, Director of the Office of Student Orientation.

We look forward to welcoming you at START this summer!
